Subject: Questions we might expect from Susan

Importance: High

These are some of my observations/takeaways from the briefing. Included are some questions we should be prepared to answer. I started with the three big picture points Marcia heard from David Hindin:

Non-Responsive

- Challenges? There was a challenges slide in the EE briefing, and we did not include one, so she might bring it up. Need to figure out the best way to address once-in-always-in concerns.

Non-Responsive

Anyway, sorry for the brain dump, but wanted to relay the highlights I heard.

Marcia, I know you mentioned you can't make the 1:30 call. Let us know if there are any of these you have input on, or want to be the "spokesperson" for. 😊
